It has been suggested that our postmaster write the department at Washington asking for a few sofas and chairs to place in the lobby at the postoffice for the use of the crowd while waiting for the evening mail to be distributed. The practice of crowding in this small space every night is something that certainly should be stopped. Patrons who pay rent for the boxes are the last ones who are able to get their mail. If you don't believe this just rent a box and try it for three months.

Before returning home, Miss Brown expects to visit several of the many other places of interest in the Southland.

The accident to the shafting in the factory caused a delay of two days, instead of the reported two to six weeks and the number of men thrown off work for the two days was about fifty, instead of reported 600.
